

# VISHNUPRIYA GODABA

vishnugvp0404@gmail.com | +91-7093502672 | Vizianagaram | GitHub | LinkedIn | LeetCode

## SUMMARY

---

Computer Science undergraduate with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in Python, Java, C, and JavaScript, with hands-on experience in Agile-based development, Git, full-stack projects and AI/ML, Large Language Models (LLMs), and Vision-Language Models (VLMs), with experience building scalable, data-driven applications.. Skilled in problem-solving, analytical thinking, and working effectively both independently and in collaborative team environments.

## EDUCATION

---

### B.Tech in Computer Science & Engineering

Anil Neerukonda Institute of Technology and Sciences  
CGPA: 9.73

11/2022 – Current

Visakhapatnam

### Intermediate (MPC)

Narayana Junior College  
Percentage: 97.9%

06/2020 – 05/2022

Vizianagaram

## EXPERIENCE

---

### Research Intern

IIT Tirupati

05/2025 – 07/2025

Tirupati

- Designed and implemented an interactive **Flutter** application to mark intersection points on scanned images, streamlining dataset preparation for researchers.
- Developed and trained a **ResNet deep learning model** to predict intersection points with high accuracy.
- Integrated **Flask backend** to serve model predictions, enabling real-time visualization and validation of marked points and built a companion website to display predictions.

## PROJECTS

---

### Point marking and predicting tool

Flutter, Flask

- Created an interactive **Flutter** app for marking intersection points on scanned line images.
- Developed and trained a **ResNet-based model** to predict intersection points for dataset preparation.
- Integrated **Flask API** for real-time prediction display and validation, streamlining researcher workflows.

### Expense Tracker

MERN Stack

- Developed a full-stack expense tracking application that allows users to record, categorize, and monitor their expenses efficiently.

### Netflix Clone

ReactJs

- Developed a responsive web application replicating Netflix's interface, featuring dynamic movie banners, thumbnails, and categorized sections using React components.

## SKILLS

---

### Programming Languages

C, Java, Python, Dart, JavaScript

### Libraries/Frameworks

React.js, Express.js, Node.js, Flutter

### Tools / Platforms

Git, VS Code, Android Studio, Docker

### Databases

MySQL, MongoDB

### Software Development Practices

Agile, Scrum, Version Control (Git)

### Problem-Solving

Data Structures & Algorithms (LeetCode, HackerRank)

## CERTIFICATIONS

---

- Back-end Application Development with Node.js and Express - IBM
- Developing Front End Apps with React - IBM
- Data Analytics with Python- NPTEL
- Cloud Computing - NPTEL
- Natural Language Processing Fundamentals - Infosys Springboard.
